About Us

Kesar Green Flora Is a Residencial Plotting Project By Crown Infra Partnership Firm and KGF Partnership firm. The owners of this Project have an experience of 12 – 15 years in Residential Plotting Industry. Kesar Green Flora is a residential plotting project close to nature, a little Far from The City So that You can surrender yourself to a place. where calmness and serenity never ends. The frequent breeze of air that touches you will make you feel the Hospitality of The Environment welcoming you whole-heartedly. Kesar Green Flora Is a place WhereYou will see the surrounding farms covered by green fields that will connect you to the Nature's Paradise.

At Kesar Green Flora, what was once farmlands is envisioned by us as developed Residential Plots with Common Plots And Club House with Modern Amenities In The Lap Of Mother's Nature So that we want you, Your Family and Your Generations To Live In A Place Where They Are Away From The Hustle And Bustle Of City's Life.

We Want You To hear the holy sounds of Bells and Chants Of The Spiritual Temple Navkardham Temple at Bagodara, Boot Bhavani Mata Temple at Arnej, Ganpatpura Temple at Ganpatpura (Koth) Village, Rajgruhi Tirth Temple At National Highway 8A, Kalikund, Shree Kasht Bhanjan Dev Hanuman (Sarangpur) and many other temples situated Nearby.

We Want Your Home at a Place near to a place where you can get Glimpse Of History Of India Lothal, one of the most prominent cities ofthe ancient Indus Valley Civilization Dating from 2400 BCE. KGF project being near to Dholera SIR (Special Investment Region) spread around 920 Sq Km, encompassing 22 Villages of Dholera Taluka and Dholera International Airport spread around 1,426 hectares with two Runways. Development at Dholera SIR and Dholera International Airport Will Also Give Impetus In Value Appreciation of Real Estate near by and KGF being strategically located near to It will also enjoy benefit of It.

Vision

The vision of our company (Kesar Green Flora) is to set up its branch offices in 5 different cities of Gujarat by the year 2025.

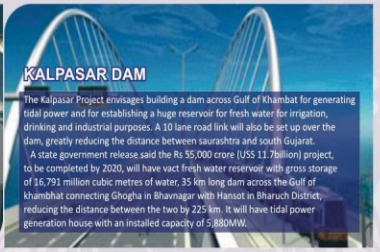
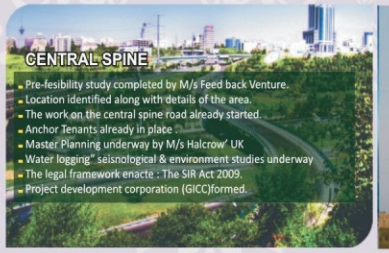
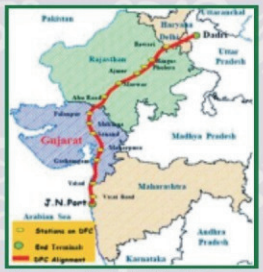
- To be linked with Ahmedabad city with metro rail system.
- Proximity to sea port, closeness to international airport.
- Premium civic amenities
- Close to Gujarat International Finance City (GIFT)
- Close to Petro-chemicals and petroleum Inv. Region (PCPIR)
- Autonomy in decisions
- Flexibility in decisions
- Single window clearance
- Dispute Resolution mechanism





DMIC... Vision & Mission



Alignment of Dedicated Freight Corridor

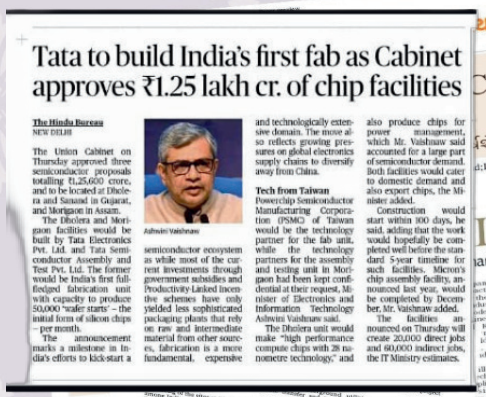
A Global Manufacturing and Trading Hub

" The engine for economic resurgence of the country "
Supported by world class infrastructure
And enabling policy framework

Project Goals

Double the employment potential in five years (14.87%CAGR)
Triple industrial output in five years (24.57%CAGR)
Quadruple exports from the region in five years (31.95%CAGR)
Infrastructure will play a major part in this jump...

News About Dholera SIR



Tata to build India's first fab as Cabinet approves ₹1.25 lakh cr. of chip facilities

The Hindu Bureau
NEW DELHI

The Union Cabinet on Thursday approved three semiconductor proposals totalling ₹1,25,600 crore, and to be located at Dholera and Sanand in Gujarat, and Morigaon in Assam.

The Dholera and Morigaon facilities would be built by Tata Electronics Pvt. Ltd. and Tata Semiconductor Assembly and Test Pvt. Ltd. The former would be India's first full-fledged fabrication unit with capacity to produce 50,000 "wafer starts" – the initial form of silicon chips – per month.

The announcement marks a milestone in India's efforts to kick-start a semiconductor ecosystem as while most of the current investments through government subsidies and Productivity-Linked Incentive schemes have only yielded less sophisticated packaging plants that rely on raw and intermediate material from other sources, fabrication is a more fundamental, expensive and technologically extensive domain. The move also reflects growing pressures on global electronics supply chains to diversify away from China.

Ashwini Vaishnaw

Tech from Taiwan

Powerchip Semiconductor Manufacturing Corporation (PSMC) of Taiwan would be the technology partner for the fab unit, while the technology partners for the assembly and testing unit in Morigaon had been kept confidential at their request, Minister of Electronics and Information Technology Ashwini Vaishnaw said.

The Dholera unit would make "high performance compute chips with 28 nanometre technology," and also produce chips for power management, which Mr. Vaishnaw said accounted for a large part of semiconductor demand. Both facilities would cater to domestic demand and also export chips, the Minister added.

Construction would start within 100 days, he said, adding that the work would hopefully be completed well before the standard 5-year timeline for such facilities. Micron's chip assembly facility, announced last year, would be completed by December, Mr. Vaishnaw added.

The facilities announced on Thursday will create 20,000 direct jobs and 60,000 indirect jobs, the IT Ministry estimates.
